

HAND PRESS NT10

FLEXIBLE PRESS SPLICING AND ON-SITE PRESS JOBS

The Randek Hand press NT10 is an excellent machine for timber splicing directly on workstations or supplemental pressing on building sites. The press is built in aluminium to reduce weight as much as possible and have a long press stroke for it's small size.

The press is air driven with standard couplings and is powered by a regular air compressor. However, the internal press mechanism is hydraulic which boosts the press force up to 10 tonne.

Hand press NT10

- Press force up to 10 tonne
- Flexible and manageable
- Air driven
- Large press area

Technical description

Article number	GP3356	GP01255
Model	NT10	NT10E
Press force	10 tonne	10 tonne
Weight	18 kg	21 kg
Press opening	33 - 107 mm	33 - 107 mm
Operations depth	115 mm	215 mm
Air pressure	7-9 bar	7-9 bar

RANDEK™

BUILDING THE FUTURE

SWEDISH QUALITY LASTS

Randek are pioneers in creating innovative automation solutions for customers within the prefabricated house manufacturing industry since the 1940s. Today, Randek is one of the world's leading suppliers of high-performance machines, robotic solutions and complete systems with production lines holding several world records in production capacity.

PRODUCTS/SYSTEM

CUT SAWS

Sturdy reliable cut saws delivered to house and roof truss manufacturers all over the world. From manual to fully automated

WALL, FLOOR AND ROOF PRODUCTION LINES

A comprehensive product range with tailor-made systems for prefab manufacturing of walls, floors and ceilings. From manual to fully automated.

ROBOTIC SYSTEM

Randek Robotics develop advanced systems in robotic automation. Delivering efficiency to customers in Europe, China, North and South America since the 1990s.

ROOF TRUSS SYSTEM

Equipment for traditional and effective manufacturing of roof trusses and a revolutionising automated roof truss production system.

BUTTERFLY TABLES

Innovative wall-turning tables. From moderate manual wall-turning tables to advanced with a range of options.
